Color Psychology

Packaging colors are one of the elements that will set your business apart from others and your choice of colors will set your product apart from your competitors products. The colors you choose should send the right subliminal messages to inspire any potential customer to buy your product.

Color is the best way to reflect and enhance a unified image and branding of your product as it is such a visual medium.

Your choice of colors should relate to your logo and reflect the image you are sending to the market place to attract buyers.

Don't make the mistake of choosing your favorite color without checking the subconscious messages of the color first. It might be a great packaging color but just inappropriate for your business image. In making the right choice of colors you need to:

Keep the consumer of your product in mind, your target market - put yourself in their shoes to see what motivates them to buy - what is their age, their gender, their economic status, their education level, determine the purpose of your product and what message you want the packaging to send to your buyer - is the message professional, serious and conservative, is it about health and well-being, is it to help with a problem, is it about luxury, is it about elegance and sophistication - make sure the colors send the right message.

Understand any cultural preferences of your target market as well as any cultural meanings attached to your color choices before making your selection. Select the colors based on the message you want to send to your target market together with the above information - find a way to stand out from the crowd [or your competition] to grab the attention of your buyer and test your color packaging in the market place to determine its success and make changes if necessary.

Remember that color is a powerful tool and can be used to influence your customer's behavior. Use it wisely and you will be successful.

رنگ یکی از فاکتورهای اصلی رقابت محصولات است.

رنگ هایی که انتخاب می کنید باید پیام های نهفته شما را انتقال دهد تا مشتری های احتمالی شما نیز جذب محصولاتتان شوند.

رنگ بهترین شیوه برای بازتاب و افزایش اتحاد محصولات شما می شود و درواقع رسانه ای بصری تلقی می شود.

انتخاب شما در رنگ باید مرتبط با لوگویتان باشد و درواقع انعکاس دهنده تصویر شما در بازار باشد تا بتواند از این طریق مشتری را جذب کند.

رنگ دلخواهتان را بدون در نظر گرفتن پیام های نهفته آن رنگ انتخاب نکنید. شاید این رنگ انتخابی شما بسیار عالی باشد اما مناسب برای تصویر تجاری بسته بندی شما نباشد.

به منظور انتخاب درست رنگ ضروریست - مصرف کننده محصول خود را و بازار موردنظران در ذهن خود بسپارید.

خودتان را به جای مشتری بگذارید تا بدانید چه چیز وی را تشویق می کند تا محصول موردنظر را خریداری کند.

سن مخاطب، جنسیت، وضعیت اقتصادی و وضعیت تحصیلی آنها را نیز در نظر بگیرید.

هدف از تولید محصولاتتان را مشخص کنید و اینکه می خواهید این بسته بندی خاص چه پیامی را به مشتری القاء کند؟ آیا این پیام حرفه ایست، جدیست، و یا محتاطانه است؟ آیا در مورد سلامتی و تندرستی است؟ آیا می خواهد احساس خوبی به مشتری بدهد؟ آیا در صدد حل مشکلی تولید شده است؟ محصولی تجمیلاتی است؟

آیا این محصول در مورد زیبایی و یا شکوه حرفی می زند؟ یا پاسخ به این سوالات اطمینان لازم را حاصل کنید تا رنگ های انتخابی شما پیام را به درستی انتقال دهد!

پیش از آنکه در مورد رنگ محصولاتتان تصمیم بگیرید، درک کاملی از اولویت های فرهنگی و معنایی فرهنگی رنگ موردنظران در بازار هدف داشته باشید.
